

# AMERICA'S

— WALL OF HONOR —

Art of Honor Presents

~ featuring ~

~ with the ~

**Spirit of America Patriot Village**

OUR MISSION is to educate children, young people, and adults about true American values throughout the nation, and bring strong patriotism back to citizens of all ages. The project includes a stunning work of Memorial Art, accompanied by five mobile museum/education centers and a mobile podcast studio that will travel through all 50 states on a 5-year tour. The entire family event is called Patriot Village. The National Tour is called the Patriot Thunder Tour.

*Help us honor those whose service and sacrifice has made our country*

**THE LAND OF THE FREE,  
AND THE  
HOME OF THE BRAVE.**

## THE DETAILS

The finished wall is approximately 57' long by 10' high. The center of the Wall features the Presidential Seal, representing the Commander-In-Chief of the Armed Forces.

The Presidential Seal is flanked on both sides by the Seals of the United States Army, Navy, Air Force, Marine Corps, Coast Guard, and National Guard; as well as Seals paying tribute to both Law Enforcement and Fire and Rescue.

Electronic databases, accessible through smart phones, will allow visitors to view the names and service information for those who have served in the past or who are currently serving. Visitors may also add new names, subject to review.

## THE ART

The Seals and Badges are designed and constructed by Memorial Artist, Tim Lampros, the creator of the LAPD End of Watch Memorial Wall.

Each Seal consists of hundreds of laser-cut pieces of stainless steel, powder-coated for color, and welded together in multiple layers. The completed Seals are mounted on layers of acrylic glass with embedded LED lighting that radiates from within.

For example, the Presidential Seal has 17 layers of steel and 3 layers of 1.25" glass. This Seal alone measures 53" in diameter, consists of 607 pieces, and weighs over 500 lbs. There is absolutely nothing else like it in the world.

## THE NEED

The national rate of Veteran, Police, and Firefighter suicides is vastly higher than the general public. In recent years, American culture has taken a turn for the worst, including anti-American, anti-Military, and anti-Police activism.

These heroes need our support and this project will lead the way to reverse that trend. The unveiling ceremony that accompanies the Wall of Honor inspires honor and respect.

America's Wall of Honor will bring both the Memorial and patriotic education to the American people on its 5-year tour throughout the United States. The Wall will be displayed in small towns, large cities, national parks, and special events; accessible to millions throughout America.

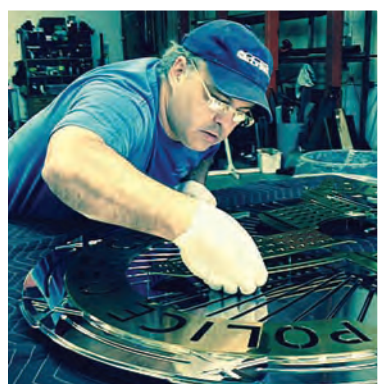

TIMOTHY LAMPROS, the artist who designed and built America's Wall of Honor, served in the United States Air Force on the crash/fire/rescue team for the Columbia, Discovery, and Challenger Space Shuttles.

After serving his Country, Tim worked as a firefighter/paramedic; first in his home state of Illinois, then in Hollywood as a Set Medic and Safety Director. He served on movie and TV sets including Titanic, Alien Resurrection, Con Air, Charlie's Angels, X-Files, and many more.

When he created his first fallen officer memorial art for a precinct of the LAPD, his demand as an artist spread rapidly throughout the city and state.

### Phase One...

## BUILDING AMERICA'S WALL OF HONOR

and PREPARATION FOR THE 5-YEAR NATIONAL TOUR

The project started with the museum commissioning a work of art by renowned memorial artist, Timothy Lampros, who designed and built the LAPD "End of Watch" Memorial Wall a few years ago. America's Wall of Honor is a 57' x 10' Memorial Wall that pays tribute to every branch of America's Military, as well as America's First Responders in both law enforcement and fire and rescue. It's the first traveling memorial wall of its kind.

### THE EXPANSION OF THE ORIGINAL MISSION

The original mission, back in 2019, was simply to build the Wall of Honor and take it on tour with one mobile Spirit of America Art Museum. However, over the last 3 years, our mission expanded greatly due to a lot of bad things we see happening in America, especially in the education of our children. So, we expanded our plans to include mobile museum/education centers to provide comprehensive patriotic education throughout our whole country. We want to bring people back to **Love of Country!**

### Phase Two...

## THE UNVEILING TOUR

During the remainder of 2023, we will be traveling with America's Wall of Honor for public events as well as fundraising events to enable us to finish building Patriot Village.

## Phase Three...

### THE PATRIOT VILLAGE

Once the funds are raised to lock in the tractor-trailers and finish the build-out of the museum/education centers, our Patriot Village will be completed, and we can begin the 5-year Patriot Thunder Tour through all 50 states. During 2026, the 250th anniversary of our Country, we will actually visit every state for a 4-day event, to help spread the celebration of our beloved Nation.

Each museum/education center in Patriot Village is made from a 53' double-expandable trailer that provides approximately 1000 square feet of space for each exciting experience.

There will be five centers within the Patriot Village, including:

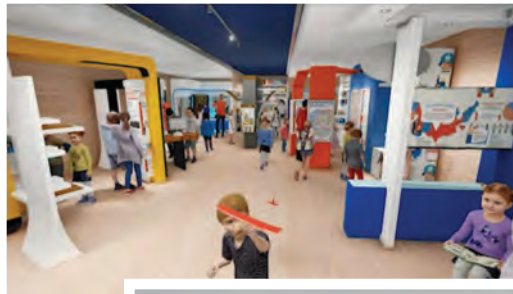

- ▶ **THE AMERICAN PATRIOT EDUCATION CENTER**, built to educate children and young people on the true history of America, our Constitution, our Flag and National Anthem, our Founding Fathers, and importance of Patriotism.
- ▶ **THE MILITARY HEROES EDUCATION CENTER** focuses on all branches of the Military with uniforms, equipment, medals, and endearing military artifacts.
- ▶ **THE FIRST RESPONDER HEROES EDUCATION CENTER** focuses on First Responders in both law enforcement and fire and rescue with uniforms, equipment, medals, and other tributes.
- ▶ **THE SPIRIT OF AMERICA MOBILE ART MUSEUM** which features works of realist art in many genres, created by American artists, and focusing on the themes of Freedom, Patriotism, our Military and First Responder Heroes, our True History and Founding Fathers, Hard Work, Charity, Family, Faith, the Beauty of America, and other elements of our uniqueness as a Nation.
- ▶ **THE HOW AMERICA WORKS EDUCATION CENTER** is geared especially to high school students who are considering future career opportunities. The focus is on the many American trades such as carpentry, construction, steel working, welding, electrical, plumbing, farming, and many others. The goal is to let young people know that they can have a successful life without going to college.

- ▶ In addition, we will have a **MOBILE OFFICE** which will serve for tour management and security; but will also contain a **PODCAST STUDIO** where we will interview military veterans, first responders, and family members, and broadcast their stories throughout the Nation.

## Tour America...

### THE 5-YEAR PATRIOT THUNDER NATIONAL TOUR

- ▶ America's Wall of Honor will travel with accompanying museums and education centers - the layout will be called "Patriot Village".
- ▶ The whole village will require approximately 1.5 acres of space.
- ▶ The tour will include all 50 states and be visited by tens of millions of visitors in small towns, large cities, national parks, and special events. We've received a commitment to get us to Alaska and Hawaii with the help of the Air Force.
- ▶ There will be strong support from Patriotic citizens and organizations.
- ▶ We will sponsor national art contests and obtain works of art for our mobile museum collection and exhibits.
- ▶ We've engaged a very experienced tour management company to provide all vehicles, drivers, and some road crew. We will hire all managers, teachers, etc.
- ▶ We've engaged a very experienced fabricator to set up all the museum/education interior exhibits.

During the years of construction, there were hundreds of photos and videos on social media. A book is also being written about the building of America's Wall of Honor and its National Tour.

For a full visual overview of this important national project, we invite you to watch this 18-minute video: <https://rumble.com/v27iqti-awoh-project-overview.html>

Honoring  
America's Military  
and First Responders

America's Wall of Honor is a traveling Memorial Wall that will tour the United States, paying tribute to our American Heroes.

It's also a one-of-a-kind artistic masterpiece that will be experienced by millions of people over the next several years.
